HOMAG CENTATEQ P-115/42/R/F FLAT TABLE 5-AXIS CNC

HOMAG CNC Machines.
German Engineered.
World Renowned.

Features
- 5' x 13.7' working field
- 18 spindle drill block including horizontal drilling and a 0/90 groove blade
- Aluminum Matrix Table with 16 reference pins
- 24 tool change positions
- 16 HP liquid cooled 5-axis main spindle
- Two 10HP vacuum umps
- Four-sided access to the machine

Advantages
- Compact footprint for small space installations
- Accurate high-speed drilling and part sizing
- Rigid, reliable, and repeatable construction
- Vacuum pump, installation, and training are included with standard machine configurations
- Industry-leading service and support
- Pendulum processing
- Barcode control

Compact 5-Axis Construction reduces installation space allowing for increased access to the machine from all sides
Aluminum matrix table allows for installation of spoilboard or interlocking of numerous clamping devices
HOMAG Drill Block the industry standard for drilling technology
