

Altendorf F45 Fusion **SLIDING TABLE SAW**

Altendorf's engineers designed the new F45 Fusion to be a blend of innovation, dependability and quality. With impressive features like a programmable motorized rip fence, a user friendly controller with color touchscreen display, a motorized two-axis scoring unit with RAPIDO shimless scoring unit, the F45 Fusion represents the industry standard for sliding table

Technical Specifications	F45 FUSION
Tilting of arbor	0-46°
Cutting length	122" (3105mm)
Motorized rip fence	51" (1300mm)
Cutting Depth Max - 90°	179mm* (7")
Cutting Depth Max - 45°	121mm* (4.8")
Main saw motor	7.5 HP (5.5kW)
Saw speed	3000/4000/5000 RPM
Standard main blade	300mm x 3.2mm x 30mm
Main blade arbor	30mm wth 2 pin holes
Dado capacity	20mm
Scoring saw motor	1 HP (0.75 kW) 8200 RPM
Scoring blade diameter	120mm
Scoring blade arbor diameter	15mm
Dust extraction	800CFM (120mm & 80mm)
Amperage	24@ 220V, 12@ 440V

Specifications are subject to change. *with max blade size
Picture is representative only. Shown with optional DIGIT L fence.

ADVANCED FEATURES:

- 3200mm (10') Sliding Table
- Evo Drive eye-level controller with color touchscreen
- Motorized rip fence, with automatic tilt compensation
- Programmable blade controls for height and tilt
- Functions for grooving, incremental cutting, angle cutting and concealed cutting
- Crosscut miter fence with 2 manually adjusted flip stops, capable of accommodating 0-49° angles
- RAPIDO shimless scoring system for kerf adjustment
- Three year mfg warranty against mechanical defects
